Take a *fresh look* at Sunrise

What does *Christian school* mean to us?

At Sunrise, the term Christian is not just a tradition. It is a living relationship with Christ, out of which our education emerges. We carefully consider our core values and philosophy which are based on the word of God. This undergirds our teaching and learning, and everything that happens in our school community.

What do we offer at Sunrise...

An Extension of the Christian Home

At Sunrise, we see ourselves as an extension of the Christian home. We consider you, the parents, primarily responsible for the education of your child and we seek to assist you in fulfilling this God given responsibility.

A Loving and Nurturing Environment

Sunrise Christian School is known to be a place where children feel they belong, where their teachers love and respect them, and work hard to enable them to learn and grow. We place Christ at the centre of our community and provide opportunities for students to develop as whole people.

For us, Christian education means allowing our faith in Christ to permeate every part of our school life. Forming positive and loving relationship is the beginning of good education.

Christian Character Development

A strong emphasis at Sunrise is the development of Christian character. This is done through positive modeling, understanding God's word and a dependence on the Holy Spirit. We aim to help children enjoy the transforming work of Christ through Christian love and grace as they learn His ways.

Effective Teaching and Learning

We value excellence and support our students according to their God given ability. Our goal is to bring glory to God in all we do. Sunrise is known to have high academic standards. We employ committed Christian teachers, have a well planned curriculum and effective assessment.

Building Christian Community Service

Along with academic excellence, we encourage students to develop a servant heart, and give them opportunities to exercise this in their classrooms and the community. We assist them to develop good communication skills, and the ability to solve problems and to work in teams, which are all qualities required for future success.
